1. Introduction

This Planning Report is prepared in support of proposed buildings and works (garage) at 11 Driftwood Close, Paynesville. The Report addresses the provisions of the General Residential Zone and Land Subject to Inundation Overlay as contained within the East Gippsland Planning Scheme.

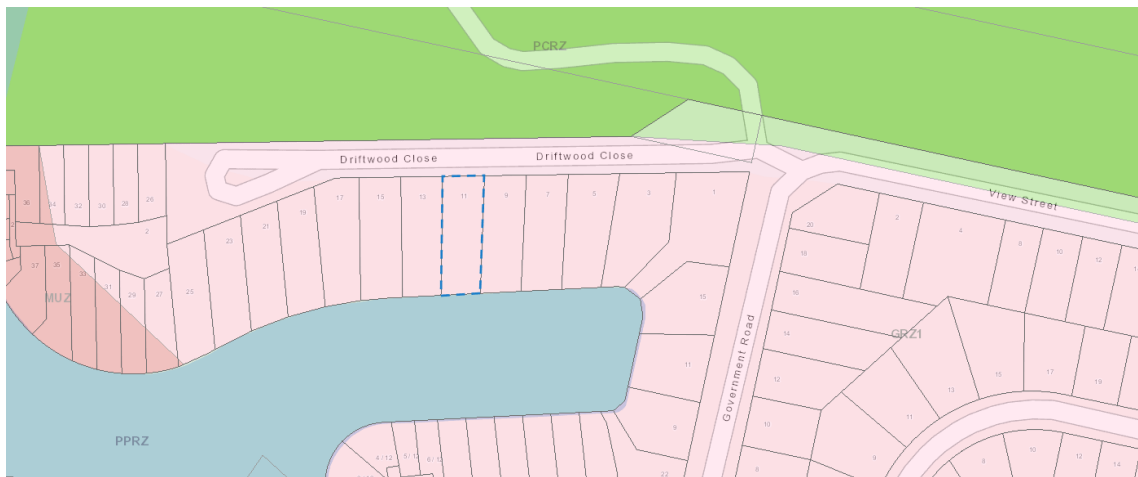

Aerial image of the subject land and immediate surrounds (Source: IntraMaps)

2. Subject Land & Surrounding Context

The subject land is formally described as Lot 8 on Plan of Subdivision PS524602Y and is a vacant parcel of residential land of approximately 816m² in area.

Aerial view of subejct land and surrounds (Source: Google Earth)

Extract from Zone mapping, with subject land outlined in blue (Source: VicPlan)

The site has frontage to Driftwood Close to the north which is a fully constructed sealed bitumen road provided with semi mountable kerb and drainage infrastructure. The site also benefits from water frontage to constructed waterway to the south.

The property has recently been developed with a double storey dwelling with integrated garage, and has only recently been occupied.

Image of the subject land looking south from Driftwood Close

The northern portion of the property, towards the frontage to Driftwood Close, is generally higher in elevation with levels in the vicinity of 3.3m AHD. The southern portion of the property within close proximity to the constructed waterway falls in elevation to around 0.67m AHD.

The subject land is contained within General Residential Zone, Design & Development Overlay – Schedule 2 and Land Subject to Inundation Overlay of the *East Gippsland Planning Scheme*.

The neighbouring property to the immediate west is developed by a two storey dwelling accessed from Driftwood Close.

Image of 13 Driftwood Close to the west of the subject land looking south

East of the subject land is a vacant General Residential Zoned land parcel. South of the land is the Paynesville canal and further south residential allotments fronting the canal. North of the property across Driftwood Close is a Council reserve developed with a walking path and car park.

Covenant AE089901D as registered on title expired on 31 December 2020. Section 173 Legal Agreement AD247186G was amended 21 July 2021 with AU930588D as encumbering the land providing limitations on development.

3. The Application & Proposal

It is proposed to develop a garage within the frontage setback (northern part of the property) at 11 Driftwood Close, Paynesville.

The proposed garage is a three bay constructed form of 6 metres in width and 9 metres in length, equating to an overall area of 54 square metres.

Extract from Floor plan (Source: Tom Hardy Designs)

The garage has been designed for vehicle access from the east, with no openings within the northern elevation visible from the street. The garage utilises similar materials (colorbond cladding in black) and roof form (skillion) to the existing dwelling, which assists with visual integration, forming a secondary, subservient element both on the site and within the wider streetscape.

Proposed northern streetscape elevation (Source: Tom Hardy Designs)

The proposed skillion roof design, complimenting the main building, has a height ranging from 3.525 metres along the western property boundary, falling to 3.0 metres to the east of the garage.

Extract from East Elevation (Source: Tom Hardy Designs)

The setback from the dwelling will be 4.68 metres and the setback to the northern boundary is proposed at 4 metres. The garage will be setback from the western neighbouring property fence line by 200mm.

The streetscape of Driftwood Close is similar to the streetscape of many stages within the Paynesville Canal development. Dwellings fronting the canals are orientated to face the canals with vehicle access obtained from the roadway. This form of development leads to visual prominence of vehicle access and vehicle accommodation.

Examples of access arrangements and garaging within the streetscape are provided through the following photographs.

Construction style, materials and colours of the proposed garage will blend with the existing dwelling and the built form of the area. The use of a skillion roof reflects the dwelling roof form, providing interest in the building form. Access obtained from the east avoids dominating garage doors. Black colorbond cladding achieves a recessive visual appearance, and landscaping will be incorporated within the front setback of the garage assisting to soften the structure.

The buildings and works do not require a permit under the General Residential Zone, as the land exceeds 300 square metres. In accordance with Clause 32.08-4 the minimum garden area remains compliant.

Planning approval is required pursuant to the following Clauses of the East Gippsland Planning Scheme:

| Planning Scheme Clause No. | Description of what is Proposed |
|---|---------------------------------|
| 44.04-2 Land Subject to Inundation Overlay | Buildings and works |

The proposed front setback of 4 metres from Driftwood Close protrudes one metre into the 5 metre setback nominated by the building envelope. Council consent at Clause 3.3 of Section 173 agreement AU930588D is required to construct a building outside of the building envelope. A request for Council consent is discussed in detail within section 6.2 of this report.

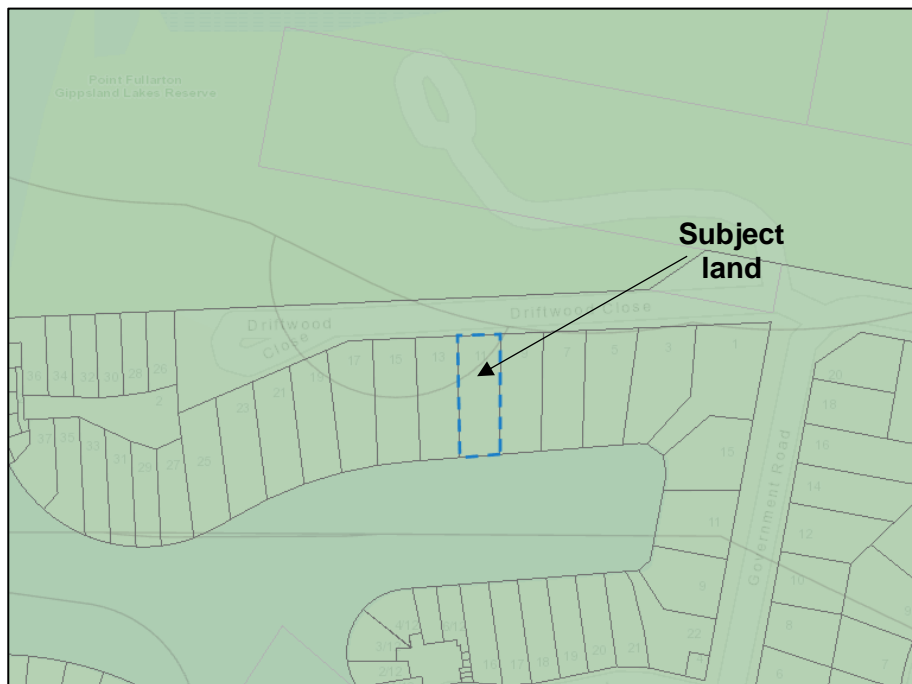

4. Cultural Heritage

The proposal does not trigger any mandatory requirements to provide a Cultural Heritage Management Plan (CHMP) under the *Aboriginal Heritage Act 2006*.

Pursuant to Regulation 7 of the *Aboriginal Heritage Regulations 2018*, a CHMP is required for an activity if:

- (a) *all or part of the activity area for the activity is in an area of cultural heritage sensitivity; and*
- (b) *all or part of the activity is a high impact activity*

*Extract from Cultural Heritage Sensitivity mapping,
with sensitive areas shown in green (Source: VicPlan)*

The subject land is mapped as an area of cultural heritage sensitivity. However, in accordance with Regulation 12, buildings and works ancillary to a dwelling are defined as an exempt activity. Therefore, there is no mandatory requirement to provide a CHMP in support of the application.

5. Planning Policy

5.1 Planning Policy Framework

Paynesville is identified as a growth area town at Clause 11.01-1L-02, encouraging a variety of housing types and styles. The Canals precinct is unique where most dwellings are developed and orientated to face the canals, and streetscape interfaces primarily for vehicle access and storage. The proposal will be consistent with this typical built form, designed to minimise the garage appearance and to be secondary structure to the main building.

The landform at the northern part of the land is above 3.4 metres AHD, falling towards the canals. When considering the combined effects of sea level rise of 0.8 metres by 2100 and the 1% AEP of 2.0 metres for Paynesville, the proposed structure is unlikely to be impacted by a 1% AEP under future climatic conditions outlined in Clause 13.01-2S Coastal inundation and erosion.

The proposed structure has been sited within an area of lesser flood risk, is not intensification, is unlikely to significantly redirect floodwaters or reduce storage of the floodplain as sought by Clause 13.03-1S Floodplain management.

Clause 15.01-2S Building design has been considered in the proposed siting and design of the garage. The garage will blend with the style of the existing building incorporating a sloped roof, utilising materials commonly found within the area, providing a type of finish and colours that will blend with the built form of the area.

5.2 Municipal Planning Strategy

Council has developed strategic directions within the Municipal Planning Strategy to guide the use and development within the Shire.

Clause 02.03-1 Settlement and housing – Growth area towns, identifies that Paynesville has grown rapidly in recent times. The proposal is consistent with the relevant strategic directions. The development of the proposed garage will support the current development of this allotment which will provide for population growth and development of a serviced residential lot within Paynesville settlement boundary and adds to the housing types and styles within the town.

Impacts from climate-induced sea level rise, combined with more severe storm surges is considered a lesser risk for the proposed garage as it is located on elevated land, is a secondary structure that will not be used for habitation and will be constructed of materials that will be resilient to any periodic flooding into the future as per Clause 02.03-3 Environmental risks and amenity.

Maintaining the human scale, village feel and character of Paynesville will be maintained by the proposed development. The garage will be of modest height, has been designed to be a secondary structure subservient to the main building and will use muted tones blending with the built form of the area as per Clause 02.03-5 Built environment and heritage.

6. Planning Elements

6.1 Land Subject to Inundation Overlay

The subject land is mapped within the Land Subject to Inundation Overlay.

Planning scheme overlay mapping (Source: VicPlan)

Overlay Purposes and Decision Guidelines

The proposal responds positively to the Overlay purposes and decision guidelines:

- The proposed building is sited on the highest part of the subject land, well outside that part of the site which would be subjected to flooding in a 1% AEP event. On that basis the new building will not result in any change of temporary storage of floodwaters, even in future climatic conditions. There will be no significant rise in flood level or flow velocity as a result of the proposal.
- The garage will not be habitable, further reducing any perceived risk to life or property.
- Colorbond construction of the garage is resilient to periodic flooding reducing detrimental impacts in case of inundation.
- The garage will not intensify occupation of the land.
- The health of the waterways will not be detrimentally impacted by the buildings as they are not facilitating the use of the land for noxious or offensive purposes.

6.2 Section 173 Agreement AU930588D

The property is subject to a building envelope as shown on the Endorsed Plan of Planning Permit 574/2003/P (Amended) which approved the subdivision creating the subject land. The building envelope has a 5 metre setback from the street frontage.

The intent of the original developer of the subject land was to ensure ongoing high quality residential development, with these aims enshrined within the Legal Agreement.

Section 3.3 of Section 173 agreement AU930588D states:

The Owner covenants and agrees that, unless with the prior written consent of Council:

3.3.1 the Owner must not construct, or permit to be constructed, a building (excluding unroofed decking, landings and jetties) outside the Building Envelope on the Subject Land

It is considered that the proposed garage, which encroaches one metre outside the building envelope, is consistent with the relevant obligations of the guidelines which permits detached garages constructed to be similar to the main building.

We respectfully seek Council's written consent to construct a garage encroaching outside the Building Envelope on the subject land, pursuant to Section 3.3 of Agreement AU930588D.

The proposed garage will maintain the quality-built form of the Paynesville canal precinct, and we believe the merits are worthy of Council consent under the provisions of the agreement.

7. Conclusion

The proposed buildings and works (garage) at 11 Driftwood Close, Paynesville is considered to accord with all relevant provisions of the Land Subject to Inundation Overlay of the East Gippsland Planning Scheme. The proposal is consistent with Planning Policy Framework and Municipal Planning Strategy and has been designed to complement the adjoining properties.

For these reasons we respectfully request that Council consider the merits of the application favourably and resolve to issue a Planning Permit.

PLANNING AND ENVIRONMENT ACT 1987 SECTION 173 AGREEMENT

THIS AGREEMENT is made the *2nd* day of *November*, 200*4*

BETWEEN

EAST GIPPSLAND SHIRE COUNCIL of 273 Main Street, Bairnsdale, Victoria

("Council")

- and -

RIVIERA PROPERTIES PROJECTS LIMITED (A.B.N. 86 061 677 218) of
Level 1, 63 The Esplanade, Paynesville, Victoria

("the Owner")

INTRODUCTION

- A. The Council is the Responsible Authority for the Planning Scheme under the Act.
- B. The Owner is the registered proprietor of the Subject Land.
- C. It is a condition of planning Permit Number 574/2003/P ("the Planning Permit") that the Owner enter into this Agreement to develop and use the land in accordance with the Endorsed Plans and conditions of the **Planning Permit**. A copy of the **Planning Permit** is attached to this Agreement and marked "A".
- D. The parties enter into this Agreement:
 - (a) to give effect to the requirements of the Planning Permit; and
 - (b) to achieve and advance the objectives of planning in Victoria and the objectives of the Planning Scheme in respect of the Subject Land.

IT IS AGREED:

1. DEFINITIONS

This copied document is made available for the sole purpose of enabling its consideration and review as part of a planning process under the Planning and Environment Act 1987. The document must not be used for any purpose which may breach any copyright.

In this Agreement the words and expressions set out in this clause have the following meanings unless the context admits otherwise:

- 1.1. **"the Act"** means the Planning and Environment Act 1987.
- 1.2. **"this Agreement"** means this agreement and any agreement executed by the parties expressed to be supplemental to this agreement.
- 1.3. **"the Endorsed Plan"** means the plan, endorsed with the stamp of the Council that forms part of the Planning Permit. A copy of the plan, as at the date of this Agreement, is attached to this Agreement and marked with the letter **"B"**.
- 1.4. **"Owner"** means the person or persons registered or entitled from time to time to be registered by the Registrar of Titles as proprietor or proprietors of an estate in fee simple of the Subject Land or any part of it and includes a Mortgagee-in-possession.
- 1.5. **"Planning Permit"** means the Planning Permit referred to in recital C. of this Agreement.
- 1.6. **"Planning Scheme"** means the East Gippsland Planning Scheme and any other planning scheme which applied to the Subject Land.
- 1.7. **"Subject Land"** means the land situated at Driftwood Close, Paynesville being Lot A on Plan of Subdivision No. 501030Y and being the land described in Certificate of Title Volume 10662 Folio 008.
Any reference to the Subject Land in this Agreement will include a reference to any lot created by the subdivision of the Subject Land or any part of it.
- 1.8. **"Mortgagee"** means the person or persons registered or entitled from time to time to be registered by the Registrar of Titles as Mortgagee of the Subject Land or any part of it.

2. INTERPRETATION

In this Agreement unless the context admits otherwise:

- 2.1. The singular includes the plural and vice versa.
- 2.2. A reference to a gender includes a reference to each other gender.
- 2.3. A reference to a person includes a reference to a firm, corporation or other corporate body and that person's successors in law.
- 2.4. If a party consists of more than one person this Agreement binds them jointly and each of them severally.
- 2.5. A reference to an Act, Regulation or the Planning Scheme includes any Acts, Regulations or amendments amending, consolidating or replacing the Act, Regulation or Planning Scheme.
- 2.6. The introductory clauses to this Agreement are and will be deemed to form part of this Agreement.
- 2.7. The obligations of the Owner under this Agreement, will take effect as separate and several covenants which are annexed to and run at law and equity with the Subject Land PROVIDED THAT if the Subject Land is subdivided, this Agreement must be read and applied so that each subsequent owner of a lot is only responsible for those covenants and obligations which relate to that owner's lot.

3. SPECIFIC OBLIGATIONS OF THE OWNER

The Owner covenants and agrees that:

AD247186G-6-0

Printed 11/12/2023

Page 28 of 74

AD247186G

3.1. Development in accordance with Planning Permit

the Subject Land shall only be developed in accordance with the Endorsed Plans and the conditions of the Planning Permit or any subsequent amendment to the permit approved by the Council.

3.2. Condition 16 of the Planning Permit No. 574/2003/P requires that:

- (a) Each Lot (excepting Lots A, B, C and D) will be developed with a single dwelling, associated outbuildings and jetties in accordance with the document "Riviera Harbours – Guidelines for Construction, Siting of, External Alterations and Additions to Buildings and Structures on Riviera Harbours Stage 10" (or as amended). A copy of the said **Guidelines** are annexed hereto and marked "C".
- (b) All maintenance and repair works associated with the revetment wall structure including the footings and footing foundations are the responsibility of each lot owner. The revetment wall structure, footings and footing foundations will be inspected every five years, or after any flood event, by an independent and appropriately qualified professional to the satisfaction of the Responsible Authority, to check the structural stability and integrity of the wall. All necessary works and actions recommended by the inspection assessment will be carried out at the expense of the lot owners at no cost to Council to the satisfaction of the Responsible Authority. A copy of the inspection assessment and recommendations will be lodged with Council within one month of the inspection and assessment having been carried out.
- (c) The lot owners will ensure that no operations, actions or practices are undertaken from land and water forming part of the approved subdivision which will result in contamination or pollution of the canals system.

DAD247186G-7-8

Printed 11/12/2023
Page 29 of 74

- (d) The location, design and structure of any proposed jetty, landing or deck will be designed as part of the overall dwelling development on the lot and will be to the satisfaction of the Responsible Authority. Such structures will comply with the East Gippsland Shire Jetty Construction Policy.
- (e) This will bind the applicant as the Owner and shall run with the land so that all successors in the title are also bound by it.

3.3. Council's Costs to be Paid

This Agreement will be prepared at the Owner's cost and to the satisfaction of the responsible authority, and must be registered on title in accordance with Section 181 of the Planning and Environment Act 1987.

The Owner must pay to the Council, the Council's reasonable costs and expenses (including legal expenses) of and incidental to the preparation, drafting, finalisation, engrossment, execution, registration and enforcement of this Agreement and until those costs are paid they will remain a debt of the Owner to the Council.

4. FURTHER OBLIGATIONS OF THE OWNER

The Owner further covenants and agrees that:

DD247186G-8-6

4.1. Notice and Registration

the Owner will bring this Agreement to the attention of all prospective purchasers, mortgagees, transferees and assigns;

4.2. Further actions

- 4.2.1. the Owner will do all things necessary, including signing any further agreements, undertakings, covenants and consents, approvals or other documents necessary for the purpose of

ensuring that the Owner carries out the Owner's covenants under this Agreement and to enable the Council to enforce the performance by the Owner of such covenants and undertakings;

AD247186G

17/11/2004 \$90

- 4.2.2. the Owner will consent to the Council making application to the Registrar of Titles to make a recording of this Agreement in the Register on the Certificate of Title of the Subject Land in accordance with Section 181 of the Act and do all things necessary to enable the Council to do so including signing any further agreement, acknowledgement or document or procuring the consent to this Agreement of any mortgagee or caveator to enable the recording to be made in the Register under that Section;

4.3. Exemption

The Owner will exempt the Council, its employees, contractors and agents from and against all costs, expenses, losses or damages whatsoever which they or any of them may sustain incur or suffer, or be or become liable for or in respect of any suit, action, proceeding, judgment or claim brought by any person whatsoever arising from or referable to this Agreement or any non-compliance thereof.

5. AGREEMENT UNDER SECTION 173 OF THE ACT

The Council and the Owner agree that without limiting or restricting their respective powers to enter into this Agreement and, insofar as it can be so treated, this Agreement is made pursuant to Section 173 of the Act.

6. OWNERS WARRANTIES

Without limiting the operation or effect which this Agreement has, the Owner warrants that apart from the Owner and any other person who has consented in writing to this Agreement, no other person has any interest, either legal or equitable, in the Subject Land which may be effected by this Agreement.

DAD247186G-9-4

7. SUCCESSORS IN TITLE

Without limiting the operation or effect which this Agreement has, the Owner must ensure that, until such time as a memorandum of this Agreement is registered on the title to the Subject Land, successors in title shall be required to:

- 7.1. give effect to and do all acts and sign all documents which will require those successors to give effect to this Agreement; and
- 7.2. execute a deed agreeing to be bound by the terms of this Agreement.

8. GENERAL MATTERS

8.1. Notices

A notice or other communication required or permitted to be served by a party on another party must be in writing and may be served:

- 8.1.1. by delivering it personally to that party;
- 8.1.2. by sending it by prepaid post addressed to that party at the address set out in this Agreement or subsequently notified to each party from time to time; or
- 8.1.3. by sending it by facsimile provided that a communication sent by facsimile shall be confirmed immediately in writing by the sending party hand delivery or prepaid post.

8.2. A notice or other communication is deemed served:

- 8.2.1. if delivered, on the next following business day;
- 8.2.2. if posted, on the expiration of two business days after the date of posting; or

8.2.3. if sent by facsimile, on the next following business day unless the receiving party has requested retransmission before the end of that business day.

AD247186G

17/11/2004 \$90 173

8.3. No Waiver

Any time or other indulgence granted by the Council to the Owner or any variation of the terms and conditions of this Agreement or any judgment or order obtained by the Council against the Owner will not in any way amount to a waiver of any of the rights or remedies of the Council in relation to the terms of this Agreement.

8.4. Severability

If a court, arbitrator, tribunal or other competent authority determines that a word, phrase, sentence, paragraph or clause of this Agreement is unenforceable, illegal or void then it must be severed and the other provisions of this Agreement will remain operative.

8.5. No Fettering of the Council's Powers

It is acknowledged and agreed that this Agreement does not fetter or restrict the power or discretion of Council any decision or impose any requirements or conditions in connection with the granting of any planning approval or certification of any plans of subdivision applicable to the Subject Land or relating to any use or development of the Subject Land.

9. COMMENCEMENT OF AGREEMENT

Unless otherwise provided in this Agreement, this Agreement commences from the date of this Agreement.

10. ENDING OF AGREEMENT

This Agreement may be ended wholly or in part or as to any part of the land by the Responsible Authority with the approval of the Minister or by

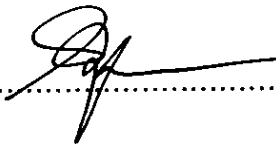

DAD247186G-11-5

Printed 11/12/2023

PLANNING PERMIT

Permit No: 574/2003/P
Planning Scheme: East Gippsland
Responsible Authority: East Gippsland Shire

Form

AD247186G

17/11/2004 \$90

ADDRESS OF THE LAND

28 Windermere Terrace PAYNESVILLE
Lot A LP 501030

BN: 82315 3

THE PERMIT ALLOWS

20 lot subdivision and use and construction of jetties in accordance with the endorsed plans.

THE FOLLOWING CONDITIONS APPLY TO THIS PERMIT:

1. Before the plan of subdivision can be certified or any development commenced, amended plans to the satisfaction of the Responsible Authority must be submitted to and approved by the Responsible Authority. When approved, the plans will be endorsed and will then form part of the permit. The plans must be drawn to scale with dimensions and two copies must be provided. The plans must be generally in accordance with the plans submitted with the application but modified to show:
 - a streetscape plan for the new road showing the location of carriageway pavement, parking bays, kerbs, crossovers, footpaths, bicycle paths and speed control devices to the standards set out in ResCode for an access street;
 - a streetscape plan for Government Road showing the location of carriageway pavement, parking bays, kerbs, crossovers, footpaths, bicycle paths and speed control devices;
 - location and species of proposed street trees and other vegetation, including for the Government Road reserve;
 - any relevant details for the location of street furniture, lighting, seats, etc.;
 - easements as required
2. The subdivision and works as shown on the endorsed plans must not be altered without the written consent of the Responsible Authority.
3. Plans for the proposed road where it encroaches onto Crown Land must be suitable for the Responsible Authority to make application to have the road proclaimed.
4. The applicant shall be required to provide for and complete the construction of all necessary infrastructure to service the proposed allotments. Infrastructure shall be constructed in accordance with current construction standards. Additionally full construction of the Government Road is a requirement of the works to be undertaken. Infrastructure shall be constructed to Council satisfaction.
5. The applicant shall engage a suitably qualified consultant to undertake the preparation of detailed engineering design, drawings, documentation and specifications for the construction of road and drainage works and for the provision of services, all to the satisfaction of Council and meeting the

AD247186G-14-6

Printed 11/12/2023

Page 36 of 74

requirements of the relevant service authorities. All documentation shall be submitted to and approved by Council prior to the commencement of construction.

6. The applicant shall appoint an appropriately qualified consultant to act as Superintendent for all infrastructure works. The role of the Superintendent shall be to certify that all works have been constructed in accordance with approved plans and specifications.
7. All jetties shall be constructed to the requirements of the East Gippsland Shire Council Jetty Policy. Additionally, the shared jetties shall be located to provide for adequate vessel manoeuvring.
8. A stormwater drainage system shall be designed in accordance with standard engineering practice to provide for the collection, control and disposal of all stormwater runoff, resulting from a storm having an ARI of 1 in 20 Years, and concentrated by future development of buildings, pavements, and/or siteworks to avoid damage or inundation to any property. Full and detailed calculations shall be provided.
9. The stormwater drainage system shall incorporate measures to ensure the quality of stormwater discharging from the development is maintained. The drainage system shall provide such water quality measures as considered necessary which may include, but not be limited to, the provision of sediment traps, weilands, detention basins, Gross Pollutant Traps and drainage pits incorporating litter baskets.
10. Each allotment shall be provided with a connection to the drainage system. Connections to the drainage system shall be in accordance with Council requirements. Pipes through the council verge area shall be constructed of steel or concrete, not PVC.
NOTE: Allotments with drainage connections through the revetment wall to the constructed canal shall be provided with a pit incorporating a litter basket.
11. With the exception of roadside drainage structures roadside verges shall have a batter slope no greater than 20 horizontal to 1 vertical.
12. The design shall address and include all applicable and statutory signage and traffic control requirements. Design drawings and specifications shall provide for the installation of appropriate signage and pavement markings conforming with the requirements of AS 1742 Manual of uniform traffic control devices. Provision of necessary signage and pavement marking shall be undertaken by the developer
NOTE: This may require the installation of signage and pavement marking in adjacent streets due to increased vehicle movements arising from this approval. These requirements will be dependent on a Road safety Audit which shall be required as part of the construction approvals process, costs of which shall be borne by the Applicant.
13. The works shall be subject to a twelve month defects liability period. Documentation shall also provide for an extended defects liability period of five years providing for all maintenance and repair to revetment walls, footings and footing foundations and dredging of the constructed waterway
14. Any portion of Council's existing infrastructure damaged as a result of work undertaken on the site or associated with the development shall be repaired/reinstated to Council's satisfaction at the developer's expense.
15. Prior to the commencement of works, the owner shall prepare a Soil and Water Management Plan outlining the debris and sediment control measures to be

AD247186G

173

17/11/2004 \$90

[Handwritten signature]

DAD247186G-15-0

installed to prevent erosion during all construction stages of both the subdivision and future development on the proposed allotments. Pollution prevention measures shall be in accordance with the Environmental Protection Authority's Publication Number 275 "Construction Techniques for Sediment Pollution Control" and "Environmental Guidelines for Major Construction Sites" (Publication No. 480).

16. Prior to the issue of a Statement of Compliance the applicant must enter into an Agreement under Section 173 of the Planning and Environment Act 1987 with the Responsible Authority to provide for the following:

- Each lot (excepting Lots A, B, C and D) will be developed with a single dwelling, associated outbuildings and jetties in accordance with the document "Riviera Harbours – Guidelines for Construction, Siting of, External Alterations and Additions to Buildings and Structures on Riviera Harbours stage 10" (or as amended).
- That all maintenance and repair works associated with the revetment wall structure including the footings and footing foundations are the responsibility of each lot owner. The revetment wall structure, footings and footing foundations will be inspected every five years, or after any flood event, by an independent and appropriately qualified professional to the satisfaction of the Responsible Authority, to check the structural stability and integrity of the wall. All necessary works and actions recommended by the inspection assessment will be carried out at the expense of the lot owners at no cost to Council to the satisfaction of the Responsible Authority. A copy of the inspection assessment and recommendations will be lodged with Council within one month of the inspection and assessment having been carried out.
- That the lot owners will ensure that no operations, actions or practices are undertaken from land and water forming part of the approved subdivision which will result in contamination or pollution of the canals system.
- That the location, design and structure of any proposed jetty, landing or deck will be designed as part of the overall dwelling development on the lot and will be to the satisfaction of the Responsible Authority. Such structures will comply with the East Gippsland Shire Jetty Construction Policy.

The agreement will bind the applicant as the owner and shall run with the land so that all successors in title are also bound by the agreement. This agreement will be prepared at the applicant's cost and to the satisfaction of the Responsible Authority, and shall be registered on the title in accordance with Section 181 of the Planning and Environment Act 1987.

17. Construction works on the subject land shall be limited to the following hours:
- | | | |
|------------------|---------------------------------------|------------------------|
| Monday to Friday | 7.30am to 6.00pm | All works |
| Saturday | 7.30am to 12.30pm | Maintenance works only |
| | (i.e. no movement of heavy machinery) | |

No works at any other times.

18. During and after construction works, the site must be managed to minimise dust generation and movement causing loss of amenity to the surrounding neighbourhood to the satisfaction of the Responsible Authority.
19. Spoil must be removed from the site via an approved cartage route to the satisfaction of the Responsible Authority and must be placed in accordance with the requirements of the 1984 agreement on the "Placement of Fill and

[Handwritten signature]

Landscaping on Crown Land" between the Department of Natural Resources and Environment and East Gippsland Properties Proprietary Limited or in accordance with the soil and water management plan on freehold areas of the project.

20. The plan of subdivision submitted for certification under the Subdivision Act 1988 must be referred to the relevant authority in accordance with Section 8 of the Act.
21. The applicant must enter into an agreement for the extension, upgrading or rearrangement of the electricity supply system to the lots on the plan of subdivision as required by TXU. (A payment to cover the cost of such work will be required and easements internal and external to the subdivision and provision of sites for substations may be required).
22. The applicant must set aside on the plan of subdivision reserves for the use of TXU Electricity Ltd, for electric substations.
23. The applicant must provide survey plans for any electric substation required by TXU Electricity Ltd and for associated power lines and cables and execute leases for a period of 30 years, at a nominal rental with a right to extend the lease for a further 30 years. TXU Electricity Ltd requires that such leases are to be noted on the title by way of a caveat or a notification under section 88(2) of the Transfer of Land Act prior to the registration of the plan of subdivision.
24. The applicant shall enter into an agreement with Telstra or other licensed Telecommunications carrier for the satisfactory provision of telephone cable reticulation one metre into each lot created.
25. The applicant shall set aside on the plan of subdivision reserve/s satisfactory to Telstra, for telecommunication/s substations if required.
26. The applicant shall pay to Telstra the reasonable cost of any works necessary, as a result of the subdivision, to remove, or alter the position of any existing facility on the subdivision, or on any adjacent land or Government Road, pursuant to Section 91(1) & (2) of the Australian Telecommunications Corporation act, 1989.
27. The applicant shall enter into an agreement under the Water Act for the provision of water supply works.
28. The applicant shall meet the cost of the necessary water mains extension.
29. The applicant shall pay East Gippsland Water a headworks and distribution charge at a level determined by the Authority at the time of payment. As a guide the level applicable on 3/9/03 is \$1,000 for the each additional lot created by the subdivision.
30. The applicant shall modify existing water service piping (if necessary).
31. The applicant shall enter into an agreement under the Water Act for the provision of sewerage works.
32. The applicant shall meet the cost of the necessary sewer mains extension.
33. The applicant shall pay East Gippsland Water an outfall and disposal charge at a level determined by the Authority at the time of payment. As a guide the level applicable at 3/9/03 is \$850 for each lot created by the subdivision.

DAD247186G-17-7

This copied document is made available for the sole purpose of enabling its consideration and review as part of a planning process under the Planning and Environment Act 1987. The document must not be used for any purpose which may breach any copyright.

34. The applicant shall connect development to East Gippsland Water's water and sewerage services to the satisfaction of the Authority.
35. Emergency vehicle access within the subdivision must be provided in accordance with the following:
 - A minimum trafficable road width of 6 metres
 - A minimum height clearance of 4 metres above all roads
 - Court bowls with a minimum trafficable radius of 10 metres
 - Road structures designed and constructed to a minimum load limit of 15 tonnes
36. CFA requires that:
 - The water reticulation plans must be approved by the CFA.
 - There must be a hydrant within 120 metres from the outer edge of any building envelope and at no more than 200 metre intervals.
 - Fire hydrants must be clearly identified in accordance with the Fire Service Guideline - "Identification of Street Hydrants for Fire Fighting Purposes".
37. This permit will expire if:
 - the subdivision is not certified within two years, of the date this permit was issued, or
 - if certified within two years, is not registered within five years of the date of Certification

The Responsible Authority may consider extending the periods referred to above if a request is made in writing before the permit expires or within three months afterwards.

Notes

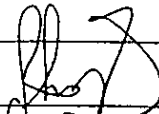

All works associated with the development must be in a manner consistent with the provisions of the Archaeological and Aboriginal Relics Preservation Act 1992 and Part 11A of the Commonwealth Aboriginal and Torres Strait Islander Heritage Protection Act, 1984. Aboriginal Affairs Victoria is the authority for administration of those Acts and the proponent is advised to contact Mr Gerry Laughton, PO Box 1240 Sale 3850 of phone 4143 1644 in relation to the above.

Prior to the commencement of works the Proponent shall submit to the Responsible Authority and the Department of Sustainability and Environment a revised rehabilitation plan of the fill sites associated with the development. It must be clearly show the amount of fill that has been placed on the site and the projected fill space available. This plan shall be endorsed by DSE prior to commencement of works.

There is Telstra Cabling located inside the boundary of the subject land. It is important that the correct procedures and care are taken regarding the cabling. For all cable locations and information please contact Melbourne one call centre.

"RIVIERA HARBOURS"

AD247186G-22-7

GUIDELINES FOR CONSTRUCTION, SITING OF, EXTERNAL ALTERATIONS AND ADDITIONS TO BUILDINGS AND STRUCTURES ON RIVIERA HARBOURS – DECEMBER 2003

"NORTH QUAY"

AD247186G

17/11/2004 \$90 173

Project Aim and Objectives

The subject land forms part of a prestigious residential and commercial real estate development – Riviera Harbours.

The aim of the development is to establish a residential precinct that provides excellence in waterfront living for Paynesville.

The vision is to provide for a residential living environment synonymous with high quality and well designed built form.

The objectives guiding the development of the built form and residential and residential environment include the following:

- Enjoyment and optimisation of views and waterfront experiences for all properties.
- The integration of the 'water element' into the living experience.
- The encouragement of the integration of indoor and outdoor living.
- Positive use of solar and passive energy sources.
- Well designed and site responsive built form consistent with the amenity of the area.
- Incorporation of nautical and maritime visual and aesthetic qualities in the development.
- To provide for a diverse range of living experiences to accommodate a variety of household types and forms.
- Use of a variation of mediums, materials and colours to reinforce the waterfront living experience.
- The inclusion of extensive landscaping and pavement treatments to enhance the built form.
- To encourage the use of native species and designed garden environments.
- To encourage the use of multi-levelled transitional landings and decks to enhance the 'living adjoining water' experience.
- To achieve high amenity and aesthetic values associated with the project to the benefit of Paynesville.

For the purchaser's interest it is desirable that certain controls be implemented in relation to the nature and type of construction, the preservation of the environment, the aesthetic appearance and the general amenity of the development. Design of buildings, landscaping, fencing, paving, and all other elements of a high quality living environment, should be guided to establish visual continuity and compatibility throughout the development.

Printed 11/12/2023

Page 44 of 74

These guidelines are not intended to be restrictive but to protect the interests of all owners of property in the development, and to provide certainty that a quality living environment may be enjoyed by all future residents.

1.0 - INTRODUCTION

"Riviera Harbours" is a waterfront canal development owned by Riviera Properties Projects Limited and managed by Riviera Properties Limited (RPL) who will appoint an Architectural Review Panel (ARP) to administer these guidelines and covenants applicable to the land. This panel shall consist of up to three persons including a registered architect nominated by RPL.

Canals when created are vested in the East Gippsland Shire as reserve for recreation, way and drainage and the Council will administer controls and maintenance in relation to the canals. The Council will have the option to strike a special rate or levy charged on abutting properties to assist with maintenance costs associated with the waterways when and if the need arises, and insurance liability cover for the Council as necessary.

2.0 – DESIGN CONFORMITY

Written Application for approval to the design, external finish and siting of and external alterations and additions to all buildings to be erected, constructed, externally altered or added to at *"Riviera Harbours"* must be made by the allotment owner to the Architectural Review Panel nominated by RPL prior to work being commenced or undertaken.

These guidelines are intended to provide the criteria for assessment of the application.

Criteria of Assessment shall be inclusive of the following elements:

- Dwelling Plans and Elevation details which shall comprise building structures nominating form and height and include foundation details.
- Where any buildings exceed 5.0 metres above the natural ground surface of any allotment a solar shading plan shall accompany the application.
- Landscaping plans showing species types and locations, retaining walls and garden structures, paved areas, driveways and fences including material types and colours.
- Site Plan indicating compliance with nominated envelopes.
- Assessment addressing the Soil & Water Management Plan principles.
- A statement nominating building materials and colours. This statement should indicate the feature of the design which incorporate the "Maritime" theme.
- Elevations of presentation to constructed waterways.
- Plans illustrating incorporation of principles for creation of 'private living' environments.
- A statement addressing the elements and aspects of the design that embrace principles of maximization of energy efficiency.
- Details of proposed landings and jetties. Plans must show conformity with the East Gippsland Shire Jetty Policy Document.

2.1 – APPROVAL PROCEDURE

The initial step required is for each owner/architect to provide to the ARP plans showing contours of the site and proposed siting of the building or structures together with a schematic presentation of the structure, including floor plan, elevations, materials and colours proposed.

This copied document is made available for the sole purpose of enabling its consideration and review as part of a planning process under the Planning and Environment Act 1987. The document must not be used for any purpose which may breach any copyright.

Two copies of the plans must be lodged one of which will be retained by the ARP.

Once general agreement is reached and prior to lodgement of an application for a building permit, the documents required for such application shall be lodged for a final conformity assessment to the ARP. Representation to the ARP in support or explanation of the proposed construction may be made by the applicant, personally or through representatives.

Costs of the ARP are payable by RPL.

The documents, together with a written assessment of conformity and approval, conditional approval or refusal of the proposal, shall be forwarded or given to the applicant within fourteen (14) days of lodgement.

Where buildings exceed 5.0 metres above the natural ground surface of any allotment a solar shading plan should accompany the application. In addition a landscape plan should be lodged at this time.

3.0 – BUILDING GUIDELINES

3.1 – Nominated Building Envelope

Nominated building envelopes form part of the guidelines, and a plan of these is attached.

The envelopes form part of Planning Permit (574/2003/P). Any variation to the approved building envelope plans are subject to further written approval from RPL and East Gippsland Shire Council. Consent to lodge an application with Council for variation must first be considered by the ARP.

Designs which aim to maximise views, to create useable outdoor living, present a varied form when viewed from or across the canals, and where buildings are sited within the “envelope” shown in the diagrams will be preferred.

All buildings must be constructed wholly within the approved building envelopes (including shade sails and the like). Unroofed decking, landings and jetties may be constructed outside the nominated building envelope subject to meeting all other relevant requirements of the original planning permit.

3.2 – Setbacks

The minimum setback from the canal and street frontage is determined by the Responsible Authority. The building envelopes are specified to meet these requirements. A continuous row of uniformly setback buildings is considered undesirable.

3.3 – Buildings Permitted and Multi Dwelling Development

Only one single or multi-storey detached dwelling is permitted on each lot.

Exceptions apply to Lots A, B, C and D upon which multi dwelling development may be permitted subject to Responsible Authority and ARP approval.

3.4 – Building Form and Height

Minimum floor levels are nominated at 2.5 AHD.

Persons wishing to erect multi-storey buildings must demonstrate at design stage that upper storey windows or balconies will not unduly prejudice neighbours' rights to privacy. The effects of overshadowing of adjoining property must be taken into account and plans showing this effect shall accompany the application. All building siting and design must comply with Rescode as well as these guidelines.

Any dwellings or multi dwelling development erected on the site shall have a total floor area of not less than one hundred and fifty square metres within the outer wall thereof calculated by excluding the area of any carport, garage, deck, terrace, pergola or verandah and must be built only of new materials and not have the external wall area (exclusive of window area) constructed of any material other than.

bricks, concrete or masonry that are bagged, and painted or finished with an approved permanent render-like coating; exceptions may apply to clay brickwork where it can be demonstrated that partial use of an untreated finish will not prejudice the overall design; painted weatherboards; with coverage no greater than 180mm; timber cladding; or natural stone or approved look alike masonry products in natural colours; flat sheet harditex materials finished with "flo-coat" style approved permanent render-like coating.

The use of a single material type on all external walls will be discouraged.

All buildings exposed to public view from street or canal shall be designed, constructed and maintained in all ways similar to the principal building on the lot.

Garages/carports shall preferably be incorporated within the main roof structure. Where detached garages/carports are permitted they shall be of the same material as the dwelling and be part of an overall integrated design.

Sun protection of walls, openings and terraces shall preferably be achieved by roof overhangs, verandahs, pergolas or other structurally integral elements.

Roofs shall be of colour-bonded metal, glass-or polygal, zincalume or similar products reflecting the colours of the maritime environment.

Look alike tile products are not permitted. The roof is an integral part of the design and excessive roof mass without variation in the plane of roof, as viewed from the street, adjoining properties or the waterway should be avoided.

RPL acknowledged that new products designed as substitutes for the above materials will be developed and marketed from time to time and, provided these materials are not inconsistent with the aim of these guidelines, they will be considered.

3.5 – External Finishes & Colours

The objective is to provide a level of finish and colours which are compatible with the 'maritime' theme and environment of "Riviera Harbours".

The following list of suitable finishes and colours are considered desirable but not definitive.

3.6.1 - Walls

DAD247186G-25-8

3.6.1.1

Masonry, Brick and Concrete walls – must be bagged and painted, or finished with an approved permanent render-like coating. Colours must emphasize the maritime environment and the use of accent colours will be considered.

3.6.1.2

Timber finishes must be painted or treated in similar colours to those above.

3.6.1.3

Glass – clear, green, grey or smoked (non-reflective). Increased external reflectivity of glass should be avoided.

3.6.1.4

Stone – natural or approved look alike masonry products in natural colours.

3.6.1.5

Clay brick – limited partial use of natural finish brick may be permitted where it can be demonstrated to the satisfaction of the ARP, that the use will not prejudice the overall design.

3.6.1.6

Harditex flat sheet finished with "flo-coat" style approved permanent render-like coating is also to be used.

AD247186G

17/11/2004 \$90

173

Printed 11/12/2023

Page 47 of 74

AD247186G

3.6.2 - Roof

Shall reflect the colours of the maritime environment.

3.6.3 - Deck Jetties and Landings

In materials and finishes acceptable to the ARP.

3.7 – Clothes Drying Areas

Areas used for the purpose of drying clothes shall be screened from public view from street or canal.

DAD247186G-26-1

3.8 – Storage Tanks

Shall be mounted at ground level and concealed from public view from street or canal.

3.9 – Vehicle Driveways and Paved Areas

Vehicle driveways and other paved areas exposed to the public view preferably shall be constructed of clay brick, masonry pavers, stone sheeted bitumen, hot mix, patterned and coloured concrete or exposed aggregate concrete.

3.10 – Energy Efficiency Principles

The design should incorporate energy efficiency principles into the built form and site layout to achieve reduced energy costs and maximization of residential amenity.

The orientation, layout and landscaping of allotments shall be designed to maximise usage of natural ventilation, daylight and solar energy.

Design should be site responsive and take account of prevailing winds and climatic conditions.

The provision of suitable vegetation for shading and allowing winter sunlight on to windows will be encouraged.

3.11 – Soil and Water Management Principles

Any proposed development must accord with the principles contained in the attached “*Soil & Water Management Plan – Riviera Harbours Allotment Development*”.

Any proposed development must be consistent with the protection from erosion, landslip or other land degradation processes. Development shall aim to minimise land disturbance and alteration of the natural ground surface.

In addition to the Management Plan provision of landscaping and terracing works should be included.

3.12 – Presentation to Constructed Waterways

Design of built form and site layout of external decks, landings and jetties shall have due regard for the retention of the amenity of the waterway (Public Open Space). Design should aim to protect and enhance the visual amenity of the public areas within the constructed waterways.

Designs which incorporate multi-levelled landings and decks will be strongly encouraged to result in a gradual progression from water level to floor level.

4.0 – STRUCTURAL ALTERATIONS OR ADDITIONS AND CHANGES TO EXTERNAL SURFACES

The guidelines shall apply to all external structural alterations and additions and changes to external surfaces of buildings and structures on the development including the same application and approval procedures as apply to initial construction.

4.1 – Site Works

The ground levels over any lot shall not be substantially changed from those existing on the day of settlement without the permission of the Responsible Authority and the ARP. Any alterations proposed shall be submitted simultaneously with plans for any buildings.

4.2 – Landscaping

4.3.1 - Allotment Maintenance

Any vacant allotment must be maintained to ensure a maximum grass height of 200mm and in general keeping with the overall maintenance of the Estate.

The buyer hereby covenants with the developer that they will accept responsibility for costs of this maintenance if it is required to be carried out by RPL.

The waterways adjacent to the land should be maintained to remove floating debris – dead and floating weed or other unsightly material.

4.2.2 - Landscape Plan and Bond.

To enhance the amenity of “Riviera Harbours” and to improve the aesthetic environment, owners of lots shall be required to landscape their properties within 6 months of entering into occupation and obtaining a certificate of occupancy. The plans for such landscaping shall be submitted to RPL or its nominee for a conformity assessment at the same time as plans are presented for the buildings. Lot owners will lodge a Landscape Bond in the form of a Bank Guarantee or cash bond for the sum of \$2,000.00 with RPL or its nominee to ensure satisfactory performance. The guarantee will be released when the agreed landscaping has been completed.

4.2.3 - Trees

The use of some native species of trees and shrubs is favoured; however, other varieties will be permitted. It is desired that a number of indigenous trees shall be planted on each site particularly on the building setbacks from street and canals. Landscape plans need to incorporate schematic layouts only with main species listed and larger trees shown on the plan. To achieve an horizon of trees rather than roofs it is desirable that a number of canopy type trees are planted on each lot but not within 3m of the revetment wall.

Trees which exist on the site either naturally or as part of a landscaping plan of the developers, cannot be removed without the permission of the Responsible Authority.

4.3– Batter Slopes

4.3.1 Maintenance and landscaping of all ground slopes is the responsibility of the lot owners.

4.3.2 Treatment of the ground slopes down to the canal revetment wall incorporating terracing and or retaining walls, including proposed landscaping shall be approved by the ARP.

5.0 – SWIMMING POOLS

Where a retaining structure is required to support a swimming pool or to form a terrace, located between a canal and a dwelling, such structure shall preferably include sloping landscaped or stone pitched banks as a means of level transition.

Where a swimming pool is constructed, safety fences shall be at least 1.2m from adjoining neighbours boundaries or otherwise positioned to avoid any effect on adjoining neighbours property.

6.0 – FENCES

In principle it is considered that a parklike appearance is appropriate and fences be kept to a minimum subject to the requirements of screening service areas, pools, patios and other outdoor living areas.

etc. The use of screen planting to define boundaries is most desirable with the emphasis on fence panels for courtyard and outdoor living area screening rather than on defining the full length of property boundaries.

6.1 – Street Boundary

6.1.1 Canal Lots – All service areas shall be screened from both canal and street view. Fences may not exceed 1.8 metres in height above ground level. Front fences cannot be built within the minimum building setback without the permission of the ARP.

6.1.2 Where fences are constructed on the setback the area between the fence-line and the street boundary shall be landscaped with appropriate vegetation.

6.1.3 Non-canal Lots – It is preferred that no front fences are built within 4.5 metres of the front street boundary and in any case no fences shall be built without permission of the ARP.

6.2 – Side Boundaries

Side fences shall not exceed 1.8 metres in height above ground level. Within the front building setback from the street boundary, any fences are subject to approval of the ARP.

6.4 – Rear Boundaries

Canal Lots – Fencing along the canal boundary and/or the revetment wall will not be permitted, and no side boundary fence will be permitted within 5 metres of the canal boundary except with the specific approval of the ARP for a special purpose.

Non-Canal Lots – Fences shall not exceed 1.8 metres in height above ground level.

6.5 – Materials for Fencing and Screening

Preferred materials will be: Timber Pickets in OBHW, KDHW or treated pine, approximately 75mm x 20mm with 20mm or similar spacing with wooden or concrete posts, brush fence with wooden posts, masonry; or bagged bricks of colour compatible with the external walls of the dwelling; or a combination of such materials. In the case of OBHW and KDHW picket fences being used on street boundaries, these shall be painted in colours compatible with the external finishes of the main building.

Conventional paling fencing will not be permitted on street boundaries.

Where allotments adjoin properties, other than roads, outside the control of the "Riviera Harbours Guidelines" fences on those boundaries will not be subject to control.

7.0 – REFUSE STORAGE

Refuse storage areas shall be totally screened from view.

8.0 – CANAL WATERWAYS

8.1 – General Rules and Regulations

All Gippsland Ports Authority rules and regulations applicable to the Gippsland Lakes shall apply to all vessels within the canal waterway.

8.2 – Revetment Walls, Footings and Footing Foundations

8.2.1 The canal walling and associated grid cabling system (1.7m wide from the wall) is constructed inside the lot boundary. All necessary repair and maintenance shall be the responsibility of the lot owners. Design of the revetment walling does not allow for any structural loading to be applied to the wall.

AD247186G

17/11/2004 \$90

173

DAD247186G-28-9

- 8.2.2 No shackles, cables and fixing eyes shall be attached to the revetment wall without written approval of the Responsible Authority.

8.3 – Beaching

- 8.3.1 Cleaning and general maintenance of the canal beaching on the frontage of each allotment will be the responsibility of the lot owners.
- 8.3.2 No excavation of the beaching or canal bank profile (submerged) shall be allowed without written permission of the Responsible Authority.

8.4 - Pollution of Canals

Lot owners must ensure that no operations, actions or practices are undertaken from the land forming part of this development which will result in contamination or pollution which is deleterious to the water quality of the canals system.

8.5 – Boat Ramps and Similar Structures

8.5.1 Prior to removal of any part of the revetment wall for the purpose of constructing a boat ramp or similar structure and prior to any construction of a boat ramp or similar structure, written approval must be obtained from the Responsible Authority and the ARP.

8.5.2 The revetment wall may only be removed in designated panels for the purpose of construction of a boat ramp or similar structure.

8.5.3 Where an approved structure is constructed on a lot, repair and maintenance shall be the responsibility of the lot owner. It will be the responsibility of the owner to refrain from any operation, action or practice which would result in the emanation from the structure of any material deleterious to the water quality of the canals.

8.5.4 Any lighting installed on the jetties, landings and decks must be designed, baffled and located to the satisfaction of the ARP, RPL and the Responsible Authority to prevent any adverse impact on adjoining land or the waterway.

9.0 – JETTIES AND LANDINGS

9.1 – General

All jetty, landings or mooring structures must be approved by the ARP. Allotment owners must make application to the Responsible Authority for a jetty outside their title boundary, subject to the approval of the ARP. Annual licenses for jetties are issued by the Responsible Authority. Allotments 11 and 12; 13 and 14; 15 and 16 are required to construct shares jetties on their common boundaries as illustrated on the attached site plan.

The location, form and structure of any proposed jetty, or landing must be designed as part of the overall dwelling development on the lots and must be to the satisfaction of the ARP and the Responsible Authority. Such structures must comply with the East Gippsland Shire Jetty Construction Policy.

9.2 – Number of Boats Moored

Allotments 11 to 16 have a single berth allocation on their shared jetties. On other allotments, a maximum number of two vessels per lot owner may be permanently moored at any one time within the canal waters, except in the case of multi-unit developments when specific approval to construct more substantial or numerically greater moorings will need to be obtained from the Responsible Authority and ARP. Small boats less than 4.0 metres long not used for commercial purposes are excluded from this provision.

9.3 – Commercial Vessels

AD247186G

17/11/2004 \$90 173

AD247186G-29-2

Printed 11/12/2023
Page 51 of 74

This copied document is made available for the sole purpose of enabling its consideration and review as part of a planning process under the Planning and Environment Act 1987. The document must not be used for any purpose which may breach any copyright.

No approval shall be issued by the ARP or RPL for commercial boating operations within the residential areas.

9.4 – Boatsheds

A boatshed can be constructed on the canal frontage or waterway, provided it is built within an approved building envelope and conforms to other requirements within these guidelines.

10.0 – LIABILITY

Riviera Properties Limited and its successors and associated companies, Riviera Properties Projects Limited and its successors, and the Responsible Authority, shall be free from any liabilities and claims for damages and/or suits of any kind as a result of or arising out of the enforcement or implementation of all or any of these guidelines or any matters associated with the same or any application for approval hereunder or the decision made. The ARP is constituted as an expert panel and no appeal will be accepted.

11.0 – BUILDING ENVELOPES AND BUILDING SETBACKS FROM THE CANAL

The East Gippsland Shire has issued a Planning Permit for the construction of buildings within the whole of the building envelopes, subject to approval of the ARP. (Copy building envelopes attached).

12.0 – RESTRICTIVE COVENANT

The following restrictive covenant shall be inserted into the Transfer of Land:

The Transferee with the intent that the benefit of this covenant shall until the 31st December 2020, be attached to and run at law and in equity with the whole of the land comprised in Plan of Subdivision Number 524602Y (other than the land hereby transferred) and that the burden thereof shall be annexed to and run at law and in equity with the said lot hereby transferred and each and every part thereof and that the same shall be noted and appear on every Certificate of Title for the said lot and every part thereof as an encumbrance affecting the same **DOTH HEREBY COVENANT** with the Transferor and other the registered proprietor or proprietors for the time being of the land comprised in the said Plan of Subdivision (other than the land hereby transferred) that the Transferee will not:

- (a) Permit the land hereby transferred or any part thereof to be used for the purpose of commercial breeding or boarding of, or training kennels for, cats or dogs or for the purpose of keeping poultry or pigeons thereon or for the parking garaging or servicing of any motor vehicle in excess of five tonnes gross vehicle mass (GVM) except for the purpose of loading or unloading of goods unless the vehicle is a construction vehicle engaged on construction works thereon or unless the vehicle is a caravan or similar vehicle and does not exceed 2.5 metres in height and is screened from view from the roadways and canals;
- (b) Permit the land hereby transferred or any part thereof to be used for parking garaging or servicing of any boat (on a trailer or hardstand), caravan, campervan, or similar vehicle unless it is screened from view from the roadways and canals.
- (c) Construct or externally alter or allow to be constructed or externally altered on the land hereby transferred any building or structure (including fences) other than in accordance with plans and specifications previously submitted to and approved in writing by the Transferor or its nominee..
- (d) Permit or authorise any part of the land hereby transferred to be used for the purposes of the drying of clothes, storage of garbage, or housing of gas, fuel or water tanks, or similar uses unless such areas are screened from public view from adjoining roadways and canals.
- (e) With the exception of Lots A, B, C and D on the said Plan no allotment shall be further subdivided so as to create an additional lot or lots.

Annexed to the Statement prescribed by Section 32 of the Sale of Land Act are the guidelines and objectives to be adopted by the Transferor or its nominee.

ATTACHMENT NO. 1 TO GUIDELINES: SOIL & WATER MANAGEMENT PLAN

ORD247186G-31-1

Printed 11/12/2023

Page 53 of 74

This copied document is made available for the sole purpose of enabling its consideration and review as part of a planning process under the Planning and Environment Act 1987. The document must not be reproduced in any form without any copyright.

GENERAL NOTES:

1. ALL WORKS MUST BE CARRIED OUT SO AS NOT TO IMPACT ON ADJACENT LOTS OR CANAL WATERS.
2. ALL VEHICLE ACCESS TO THE SITE MUST BE RESTRICTED TO A SINGLE ENTRY/EXIT POINT AND A PARKING AREA ON THE SITE. THE SINGLE ENTRY/EXIT POINT MUST BE STABILISED WITH A RIGID GRID TO MINIMISE THE TRACKING OF SEDIMENT ON TO PUBLIC ROADS. THE RIGID GRID MAY COMPRESE OF 100MM X 10MM HARDWOOD BOARDS SECURED AT 150MM INTERVALS OR 3M OF CHAIN LAID ALONG THE GROUND OR A CATTLE GRID BEARING ON BED LOGS OVER A 200MM DITCH.
3. WASTE AND RECYCLING RECEPTACLES MUST BE ESTABLISHED ON THE SITE AND EMPLOYED AT SUFFICIENT FREQUENCIES TO PREVENT OVERFLOWING.
4. WASTE FROM EQUIPMENT AND VEHICLE WASH DOWN AREAS AND TILE / BRICK CUTTING MUST BE MINIMISED.
5. ALL SEDIMENT CONTROL STRUCTURES MUST BE IN PLACE PRIOR TO THE COMMENCEMENT OF ANY SITE WORKS.
6. A DIVERSION BANK AND CHANNEL MUST BE CONSTRUCTED ABOVE THE UPPER LIMIT OF THE CUT BATTER TO DIVERT UP-SLOPE WATER AROUND THE SITE.
7. SILT FENCES MUST BE CONSTRUCTED AT THE LOW SIDE OF THE SITE IMMEDIATELY BELOW THE LIMIT OF DISTURBANCE, LEAVING SUFFICIENT ROOM FOR STOCKPILES AND CONSTRUCTION ACTIVITIES.
8. A SEDIMENT TRAP MUST BE LOCATED AT THE LOWEST POINT ALONG THE SILT FENCE. STOCKSOIL MUST BE STRIPPED, STOCKPILED AND IMMEDIATELY STABILISED ON SITE.
9. THE NUMBER OF STOCKPILES MUST BE MINIMISED AND LOCATED WITHIN DESIGNATED STOCKPILE AREAS IN THE SITE. STOCKPILES MUST NOT BE PLACED ON THE NATURAL STRIP, FOOTPATH NOR KERB AND NOT WITHIN 3M OF DRAINAGE FLOW PATHS. SEDIMENT CONTROLS SUCH AS SILT FENCES AND COVERING OF STOCKPILES MUST BE CONSTRUCTED AROUND INSTABLE STOCKPILES.
10. EARTHWORKS AND DISTURBED AREAS MUST BE MINIMISED AND ALL DISTURBED SLOPES STABILISED PROMPTLY.
11. ALL SEDIMENT CONTROL STRUCTURES MUST BE INSPECTED AFTER EACH RAINFALL EVENT AND ANY STRUCTURAL DAMAGE MUST BE RECTIFIED IMMEDIATELY.
12. ALL TRAPPED SEDIMENT FROM ALL SEDIMENT CONTROL STRUCTURES, UNTIL REMOVED, MUST BE DEPOSITED IN STABLE LOCATIONS AND ITS SURFACE STABILISED.
13. SEDIMENT DEPOSITION IN SEDIMENT CONTROL STRUCTURES MUST BE REMOVED AT SUFFICIENT FREQUENCIES TO ENSURE A MAXIMUM SEDIMENT DEPOSITION OF ONE THIRD OF THE TOTAL SEDIMENT RETENTION CAPACITY OF THE STRUCTURE.
14. SEDIMENT DEPOSITION BEHIND SILT FENCES MUST BE REMOVED AT SUFFICIENT FREQUENCIES TO ENSURE A MAXIMUM SEDIMENT DEPTH OF 200MM.
15. ALL PRECAST CONCRETE TRACKS MUST BE LAYED DOWN ON-SITE PRIOR TO LEAVING THE SITE.
16. THE BROUSE POTENTIAL OF STORMWATER GENERATED FROM THE SITE, INCLUDING PAVED AREAS AND DWELLING ROOFS MUST BE MINIMISED. THIS SHALL BE CARRIED OUT BY CONNECTING ROOF DOWNPIPES AND STORMWATER DRAINAGE LINES TO DISCHARGES POINTS IN THE CANAL REVEMENT WALL OR BACK OF KERB.
17. ALL DISTURBED AREAS MUST BE STABILISED WITH VEGETATIVE COVER AND/OR GEOTEXTILE MATERIAL IMMEDIATELY UPON COMPLETION OF WORKS.

AU930588D

PLANNING AND ENVIRONMENT ACT 1987
SECTION 173 AGREEMENT

THIS AGREEMENT is made the 21st day of July 2021

BETWEEN:-

EAST GIPPSLAND SHIRE COUNCIL of 273 Main Street, Bairnsdale, Victoria
("Council")

and

RIVIERA PROPERTIES PROJECTS LIMITED (ABN 86 061 677 218) of
Level 1, 63 The Esplanade, Paynesville, Victoria
("the Owner")

INTRODUCTION

- A. The Council is the Responsible Authority for the Planning Scheme under the Act.
- B. The Owner is the registered proprietor of the Subject Land.
- C. It is a condition of planning permit number 574/2003/P (Amended) ("the Planning Permit") that the Owner enter into this Agreement to develop and use the land in accordance with the Endorsed Plans and conditions of the Planning Permit. A copy of the Planning Permit is attached to this Agreement and marked "A".
- D. On 2 November 2004, Council and Riviera Properties Projects Limited ("the Former Owner") entered into this Agreement in accordance with the Planning Permit. The Agreement was recorded on the certificate of title to the Subject Land in dealing number AD247186G on 17 November 2004.
- E. Under clause 3.2 of the Agreement, the Subject Land is required to be used and developed in accordance with the "Riviera Harbours – Guidelines for Construction, Siting of, External Alterations and Additions to Buildings and Structures on Riviera Harbours" ("the Guidelines").
- F. Under the Guidelines, the Former Owner is entitled to appoint the Architectural Review Panel (ARP). The consent of the ARP must be obtained before the Subject Land is developed.
- G. Since the Agreement was entered into, the Former Owner has been formally wound up and deregistered. It is no longer possible to obtain the consent of the ARP under the Guidelines.
- H. The Council has decided to amend the Agreement under section 178E of the Act in order to remove the Owner's obligation to use and develop the Subject Land in accordance with the Guidelines and to include certain obligations under the Guidelines in the Agreement.

AU930588D

I. The Parties enter into this Agreement:

- (a) to give effect to the requirements of the Planning Permit;
- (b) to achieve and advance the objectives of planning in Victoria and the objectives of the Planning Scheme in respect of the Subject Land;
- (c) to remove the Owner's obligation to use and develop the Subject Land in accordance with the Guidelines; and
- (d) to include certain obligations under the Guidelines in the Agreement.

IT IS AGREED:

1. DEFINITIONS

In this Agreement the words and expressions set out in this clause have the following meanings unless the context admits otherwise:

- 1.1 **"the Act"** means the Planning and Environment Act 1987.
- 1.2 **"this Agreement"** means this agreement and any agreement executed by the parties expressed to be supplemental to this Agreement.
- 1.3 **"Beaching"** means sand and stone mounding abutting the revetment wall intended to protect the revetment wall and prevent water vehicles from running aground.
- 1.4 **"the Building Envelope"** means a building envelope shown on the Endorsed Plan.
- 1.5 **"Canal Lot"** means a Lot that adjoins a canal.
- 1.6 **"the Endorsed Plan"** means the plan, endorsed with the stamp of the Council that forms part of the Planning Permit. A copy of the plan, as at the date of this Agreement, is attached to this Agreement and marked with the letter "B".
- 1.7 **"Lot"** means a lot on the Endorsed Plan.
- 1.8 **"Owner"** means the person or persons registered or entitled from time to time to be registered by the Registrar of Titles as proprietor or proprietors of an estate in fee simple of the Subject Land or any part of it and includes a Mortgagee-in-possession.
- 1.9 **"Planning Permit"** means the Planning Permit referred to in recital C of this Agreement.
- 1.10 **"Planning Scheme"** means the East Gippsland Planning Scheme and any other planning scheme which applies to the Subject Land.
- 1.11 **"Soil and Water Management Plan"** means the "Soil and Water Management Plan – Riviera Harbours Allotment Development", as amended from time to time. A copy

AU930588D

of the Soil and Water Management Plan is available for inspection at Council offices during normal business hours upon giving Council reasonable notice.

- 1.12 **“Subject Land”** means the land situated at Driftwood Close, Paynesville being Lot A on Plan of Subdivision No. 501030Y and being the land described in Certificate of Title Volume 10662 Folio 008.

Any reference to the Subject Land in this Agreement will include a reference to any lot created by the subdivision of the Subject Land or any part of it.

- 1.13 **“Tree”** means a tree capable of reaching a height of 5 metres or more.

- 1.14 **“Mortgagee”** means the person or persons registered or entitled from time to time to be registered by the Registrar or Titles as Mortgagee of the Subject Land or any part of it.

2. INTERPRETATION

In this Agreement unless the context admits otherwise:

- 2.1 The singular includes the plural and vice versa.
- 2.2 A reference to a gender includes a reference to each other gender.
- 2.3 A reference to a person includes a reference to a firm, corporation or other corporate body and that person's successors in law.
- 2.4 If a party consists of more than one person this Agreement binds them jointly and each of them severally.
- 2.5 A reference to an Act, Regulation or the Planning Scheme includes any Acts, Regulations or amendments amending, consolidating or replacing the Act, Regulation or Planning Scheme.
- 2.6 The introductory clauses to this Agreement are and will be deemed to form part of this Agreement.
- 2.7 The Owner's obligations under this Agreement, will take effect as separate and several covenants which are annexed to and run at law and equity with the Subject Land PROVIDED THAT if the Subject Land is subdivided, the Agreement must be read and applied so that each subsequent owner of a lot is only responsible for those covenants and obligations which relate to that owner's lot.

AU930588D

3. SPECIFIC OBLIGATIONS OF THE OWNER

The Owner covenants and agrees that:

3.1 Development in accordance with Planning Permit

the Subject Land shall only be developed in accordance with the Endorsed Plans and conditions of the Planning Permit or any subsequent amendment to the permit approved by Council.

3.2 [Clause 3.2 deleted]

3.3 Obligations from the Guidelines – General

the Owner covenants and agrees that, unless with the prior written consent of Council:

- 3.3.1 the Owner must not construct, or permit to be constructed, a building (excluding unroofed decking, landings and jetties) outside the Building Envelope on the Subject Land;
- 3.3.2 no more than one dwelling may be developed on a Lot;
- 3.3.3 any dwelling erected on a Subject Land must:
 - (a) have a minimum floor level of 2.5 metres Australian Height Datum;
 - (b) have a floor area of not less than 150 square metres within the outer walls thereof calculated by excluding the area of any carport, garage, terrace, pergola or verandah; and
 - (c) be built only of new materials;
- 3.3.4 all buildings visible from the street or canal must be designed, constructed and maintained to be similar to the main building on that lot;
- 3.3.5 any areas used for the purpose of drying, storage tanks or refuse storage must not be visible from the street or canal;
- 3.3.6 vehicle driveways and other paved areas visible from the street or canal must be constructed of clay brick, masonry pavers, stone sheeted bitumen, hot mix, patterned and coloured concrete or exposed aggregate concrete;
- 3.3.7 the Owner must develop the Subject Land in accordance with the Soil and Water Management Plan;
- 3.3.8 no Trees may be planted within 3 metres of the revetment wall;

AU930588D

- 3.3.9 any service areas on a Canal Lot must not be visible from the street or canal;
- 3.3.10 the Owner must not erect, or permit to be erected any fence on a Canal Lot:
- (a) exceeding 1.8 metres in height;
 - (b) along the canal boundary or the revetment wall; or
 - (c) within 5 metres of the canal boundary; and
- 3.3.11 the Owner must not erect, or permit to be erected any fence on any boundary of a Lot adjoining a road reserve.

3.4 Obligations from the Guidelines – Revetment wall

the Owner covenants and agrees that:

- 3.4.1 the Owner must maintain and repair all works associated with:
- (a) the revetment wall structure adjoining the Owner's Lot, including the footings and footing foundations, the canal walling and associated grid cabling system;
 - (b) the canal Beaching adjoining the Owner's Lot; and
 - (c) boat ramps, jetties, landings and decks adjoining the Owner's Lot;
- at the full cost of the Owner to the satisfaction of Council;
- 3.4.2 the Owner must not alter, demolish, or attach any shackles, cables or fixing eyes to, any part of the revetment wall unless with Council's prior written consent;
- 3.4.3 the revetment wall structure, footings and footing foundations adjoining the Owner's Lot must be inspected every five years, and after any flood event, by an independent and appropriately qualified professional to the satisfaction of Council in order:
- (a) to check the structural stability and integrity of the wall; and
 - (b) to recommend any necessary works and actions, which must be carried out. A copy of the inspection assessment and recommendations must be lodged with Council within one month of the inspection and assessment having been carried out;
- at the full cost of the Owner to the satisfaction of Council;

AU930588D

- 3.4.4 the Owner must ensure that no operations, actions or practices are carried out on the Subject Land which result in contamination or pollution of the canals system; and
- 3.4.5 the Owner must not construct, or permit to be constructed, any jetty, landing, boatshed or mooring structure unless with the prior written consent of Council.

3.5 Council's Costs to be Paid

This Agreement will be prepared at the Owner's cost and to the satisfaction of the responsible authority, and must be registered on title in accordance with Section 181 of the Planning and Environment Act 1987.

The Owner must pay to the Council, the Council's reasonable costs and expenses (including legal expenses) of an incidental to the preparation, drafting, finalisation, engrossment, execution, registration and enforcement of this Agreement and until those costs are paid they will remain a debt of the Owner to the Council.

4. FURTHER OBLIGATIONS OF THE OWNER

The Owner further covenants and agrees that:

4.1 Notice and Registration

the Owner will bring this Agreement to the attention of all prospective purchasers, mortgagees, transferees and assigns;

4.2 Further actions

4.2.1 the Owner will do all things necessary, including signing any further agreements, undertakings, covenants and consents, approvals or other documents necessary for the purpose of ensuring that the Owner carries out the Owner's covenants under this Agreement and to enable the Owner to enforce the performance by the Owner of such covenants and undertakings;

4.2.2 the Owner will consent to the Council making application to the Registrar of Titles to make a recording of this Agreement in the Register on the Certificate of Title of the Subject Land in accordance with Section 181 of the Act and do all things necessary to enable Council to do so including signing any further agreement, acknowledgment or document or procuring the consent to this Agreement of any mortgagee or caveator to enable the recording to be made in the Register under that Section;

4.3 Exemption

The Owner will exempt the Council, its employees, contractors and agents from and against all costs, expenses, losses or damages whatsoever which they or any of them may sustain incur or suffer, or be or become liable for or in respect of any

AU930588D

suit, action, proceeding, judgment or claim brought by any person whatsoever arising from or referable to this Agreement or any non-compliance thereof.

5. AGREEMENT UNDER SECTION 173 OF THE ACT

The Council and the Owner agree that without limiting or restricting their respective powers to enter into this Agreement and, insofar as it can be so treated, this Agreement is made pursuant to Section 173 of the Act.

6. OWNER'S WARRANTIES

Without limiting the operation or effect which this Agreement has, the Owner warrants that apart from the Owner and any other person who has consented in writing to this Agreement, no other person has any interest, either legal or equitable, in the Subject Land which may be affected by this Agreement.

7. SUCCESSORS IN TITLE

Without limiting the operation or effect that this Agreement has, the Owner must ensure that, until such time as a memorandum of this Agreement is registered on the title to the Subject Land, successors in title shall be required to:

- 7.1 give effect to and do all acts and sign all documents which will require those successors to give effect to this Agreement; and
- 7.2 execute a deed agreeing to be bound by the terms of this Agreement.

8. GENERAL MATTERS

8.1 Notices

A notice or other communication required or permitted to be served by a party on another party must be in writing and may be served:

- 8.1.1 by delivering it personally to that party;
- 8.1.2 by sending it by prepaid post addressed to that party at the address set out in this Agreement or subsequently notified to each party from time to time;
- 8.1.3 by sending it by facsimile provided that a communication sent by facsimile shall be confirmed immediately in writing by the sending party hand delivery or prepaid post.

8.2 A notice or other communication is deemed served:

- 8.2.1 if delivered, on the next following business day;
- 8.2.2 if posted, on the expiration of two business days after the date of posting; or

AU930588D

8.2.3 if sent by facsimile, on the next following business day unless the receiving party has requested retransmission before the end of that business day.

8.3 No Waiver

Any time or other indulgence granted by the Council to the Owner or any variation of the terms and conditions of this Agreement or any judgment or order obtained by the Council against the Owner will not in any way amount to a waiver of any of the rights or remedies of the Council in relation to the terms of this Agreement.

8.4 Severability

If a court, arbitrator, tribunal or other competent authority determines that a word, phrase, sentence, paragraph or clause of this Agreement is unenforceable, illegal or void then it must be severed and the other provisions of this Agreement will remain operative.

8.5 No fettering of the Council's powers

It is acknowledged and agreed that this Agreement does not fetter or restrict the power or discretion of Council to make any decision or impose any requirements or conditions in connection with the granting of any planning approval or certification of any plans of subdivision applicable to the Subject Land or relating to any use or development of the Subject Land.

9. COMMENCEMENT OF AGREEMENT

Unless otherwise provided in this Agreement, this Agreement commences from the date of this Agreement.

10. ENDING OF AGREEMENT

This Agreement may be ended by agreement between Council and the Owner.

AU930588D

SIGNED, SEALED AND DELIVERED as an agreement under Division 2 of Part 9 of the Act and as a Deed between the Parties.

The Common Seal of the East Gippsland Shire Council
was hereunto affixed on the 21st day
of July 21, in the presence of:
